

True luxury has a timeless quality. The careful selection of fine materials along with the skilled hands of an experienced craftsman can transform the ordinary into the extraordinary.

Timeless Luxury

Since 1892, the master craftsmen at Lloyd & Penfield have combined the most advanced innerspring designs with the finest cushioning materials and elegant fabrics to create exceptional mattresses that provide more than just a place to sleep, but a luxurious refuge where you can rest your body and restore your spirit.

LLOYD & PENFIELD.

Time is our most precious commodity. A bed can often provide a moment of refuge in a frenetic world, as well as the perfect ambiance to enjoy the small wonders of life... the kiss of the morning sun, the aroma of fresh coffee or the soft whisper of a spring breeze.

Capture the Moment

We've seen to it that all of our mattresses are designed and built to provide years of exceptional luxury, comfort and support. From small details like embroidered corner guards to innovative technologies such as an advanced 660 alternating coil unit with edge support, every Lloyd and Penfield mattress is created with one thing in mind... timeless luxury.

Every Lloyd & Penfield Mattress Features:

660 Alternating Coil Unit reduces "roll together" and improves stability and conformance.

Hi Density Foam Encasement expands the usable sleep surface and provides a firm seating edge.

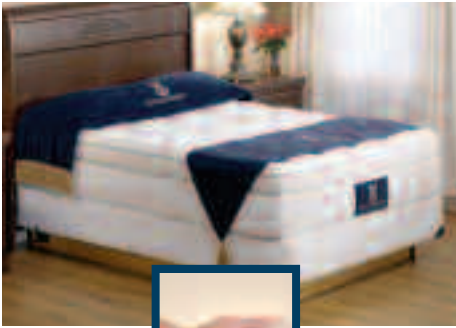

Italian Velour covers with CoolMax™ fabric for exceptional breathability and comfort.

Boxed pillowtop constructions featuring 1 1/4 oz. high loft fiber and 1 1/2" of supersoft convoluted foam.

LLOYD & PENFIELD
